Carl Edwin Polan, our dad, pa, will be missed so much. He filled a huge space in our lives. The greatest gift our dad gave us was not what he left behind but what he helped us become. He was very loved by us all.

A graveside service will be conducted, Tuesday, May 12, 2026, at 11:00 A.M. in the Westview Cemetery, with the Rev. Todd Milsap officiating.

“ It was with sadness that I learned of the passing of my friend, esteemed colleague, and fellow West Virginian, Dr. Carl E. Polan. Carl grew up in Doddridge County, a neighboring county to my home in Harrison County. He attended West Virginia University for his BS and MS degrees where he interacted with Harrison County natives from my neck of the woods including Bob Steele, Jim Stutler, and Raymond L. Greathouse. He was also a roommate with Glenn Snyder, Jr. from Preston County who later became the first 4-H agent that I knew in Harrison County. We interacted some over many years at meetings of the American Dairy Science Association but I really got to know Carl in 1998 when he was one of 15 members of a study tour to Ireland and Northern Ireland to learn more about their dairy grazing systems. As Carl indicated on the tour and at subsequent training sessions in SC, NC, and VA in 1999: "I was into grazing before grazing was cool." Members of the study tour and a few dairy graziers and friends met at Mrs. Rowe's Restaurant in Staunton, VA this past September to reminisce and to celebrate Carl's 94th birthday where he had cherry pie for dessert.

An Irish Blessing

May the road rise to meet you.

May the wind be always at your back.

May the sun shine warm upon your face.

And rains fall soft upon your fields.

And until we meet again,

May God hold you in the hollow of His hand.

“ Two memories of Carl. I was asking if I could get some student help to wash dishes in the lab, told Carl he was paying me as a post-doc to think, not wash dishes. Carl said he thought I could think while washing dishes, Now I smile every time I wash dishes. He wrote a letter of recommendation for my position at Wisconsin. Years later I became chair and had access to the personnel files. Got bored one night and read Carl's letter. About me: 'he has a few rough edges, but that makes him human'. I agree on the rough edges, glad Carl found me human'. Human' describes Carl pretty well too I guess.
