“ *Mr. Manross was my third grade teacher in Woodbridge, Virginia. I am 72 so you can figure out the math as to how long ago that was. He moved to Vermont and we actually corresponded (in the old fashioned method of letter writing) for a couple of years. He was such an influence on me. Friends were talking about teachers the other day. I immediately thought of Mr. Manross. Through internet search I found this. Of course he stayed in education. He was made for it! To his family: my sympathy and prayers.*
