“*To Patsy's family. I am very saddened to hear of Patsy passing away. She used to come and visit my Mom with Betty Lou. I never saw her anywhere that I did not get a big old hug from her. I was thinking of her just the other day and my sis and I were talking about her. It has been sometime since I've seen her. Think the last time was a Kroger store. She was a kind and caring to me and she was such a Godly woman. She will be missed. My prayers go out to the family. I am so sorry for all of your loss. I am April Stanley Clark, and my mother was Louise Carden Stanley.*”

“*What a kind soul Patsy was! Always taking care of people and always so ready to cook someone a meal if you came for a visit. I believe it was she that gave me my nickname of “Joanbug” when I was a child. My heart is sad for her passing. She will be missed by many. Prayers for the family.*”

“ My heart is heavy from hearing the news of the passing of my dear friend Patsy. My condolences are to all her family and friends. She was very special to many, her simplicity toward life and her love for nature. She was grounded by her Christian faith and her guided love to help others in need. Her genuine kindness was always received when you visit her home. She made you feel so special by offering a snack or always willing to cook you a meal. But most of all no matter how long you stayed she never wanted to see you leave. She would make it her point to tell you to hurry back to see me.

One day a few summers ago she came to visit my home. She would always compliment my flowers especially the black-eyed Susan's. She noticed a particular flower it was about six feet tall it was a Cosmos. I couldn't help but noticed how happy seeing that flower made Patsy feel. She told me how it reminded her of when she was a little girl. She said she always wanted to grow them, but she could never find the seeds.

I went inside my house and came back and handed her a pack of seeds. She was so happy and excited to get that little packet of seeds. It brought her so much joy she reminded me of that little girl she once was from all the excitement. I could never forget the laughter and joy on her face.

That day is how I will always remember you, my dear friend. Thank you for blessing my life with your kindness and love. Rest easy my dear sweet friend, and enjoy the big, beautiful field of the vibrant colorful Cosmos, until we meet again.

Sincerely,

Mary Trussell
