“ A story that will last with me forever. Around 1986 all of us were up at my Nana & Papa's trailer on the Shenandoah River. William, my brother Mark & myself were fishing up to about our waists in the middle of the river, I had caught about a 3lb bass and put it on a stringer while hooked on my belt loop. As we were walking down the river, the bass was in front of me swimming along and was right beside William. Then it happened!!! William caught it out of the corner of his eye and almost jumped out of the water. We laughed so hard about it, he didn't realize I hooked it on the stringer and just let it swim along. Remembering stories like this, makes me smile and realize what a character William was. William, I will miss our phone calls and catching up on life. Until we meet again my brother.
